

CALCITRON

Calcium, Magnesium, Zinc & Vitamin D3 Tablets

Helps To Maintain
STRONG BONES

CALCITRON

Calcium, Magnesium,
Zinc & Vitamin D3 Tablets

Helps To Maintain
**STRONG
BONES**

Calcitron is formulated with Calcium, Vitamin D, Magnesium and Zinc to prevent dietary deficiency of these important micro nutrients. A diet deficient in Calcium can lead to osteoporosis in later life. **Calcitron** contains Calcium Citrate which is the best absorbed Calcium Salt. In addition, Vitamin D in **Calcitron** promotes Calcium absorption in the gut.

Each film coated tablet Contains:

Calcium Citrate	1000 mg.
Magnesium Hydroxide eq. to Magnesium	100 mg.
Zinc Sulphate	10 mg.
Vitamin D3	200 I.U.
Excipients	q.s.

Nutritional Information Per serving tablet (Approximate)

Energy	Less than 1Kcl.
Carbohydrate	Less than 1gm.
Protein	Less than 1gm.
Fat	Less than 1gm.

- Calcium is the most abundant mineral in the body.
- Inadequate calcium intake for longer duration is responsible for osteopenia and osteoporosis.
- Prevention and treatment of osteoporosis is frequently done with calcium supplement.
- Calcium citrate (in Calcitron) is better absorbed than calcium carbonate in patients with high gastric PPI.
- Calcium Citrate is recommended for those on H2 blocker or PPI.
